

CONSCIOUS II

Curriculum Development of Human Clinical Trials

Autumn Course in Clinical Trials

PhD students – early-career researchers – lecturers – experts in CT

Organisational info

September 11, 2024, 9:00–15:00

September 12, 2024, 11:00–17:00

St. Anne's University Hospital Brno
Brno, Czech Republic

This course is free. Travel and accommodation expenses may be covered via Erasmus+ short mobility. Alternatively, seize the chance to participate in the CZECRIN Annual Research Conference, see the info below. Check your local availability of funding for one or the other option.

Preliminary course programme

Clinical Trial Designs

Trial Management

Quality and Regulatory Affairs

Pharmacovigilance and Study Medication

Paediatric Clinical Trials

Leadership for PIs

The F2F course will be based on **team-based learning**. Practical skills will be developed by **hands-on activities** and **discussion** of individual topics. Six topics from the CONSCIOUS II curriculum will be covered. The certificate of participation will be issued.

About CONSCIOUS II

The CONSCIOUS II project is focused on training of clinical trialists of the future. Twelve e-learning lessons were created to cover topics in designing, planning and organising clinical trials, specific types of clinical trials and transferable interdisciplinary skills program. All the e-learning materials are placed on the training platform using interactive elements to enhance the learning experience.

Find out more on www.conscious2.eu.

Registration is open until
August 31, 2024.

The capacity is limited. Learn essential trialists' skills. Take the opportunity to explore Brno. Expand your European network. Connect with peers.
